SICKENING.

For a Republican who accepts party measures to the exclusion of none, to criticise any Demo-cratic measure, subscribing him-self a "Holier than thou" is really sickening. History gives account of certain people, now Republicans, who brought human beings to our shores and sold them into slavery.

It gives an account of the same people instrumental in their freedom without compensation to It gives an account of the same people instrumental in their freedom without compensation to worers. Of the same people who marched to the sea devastating pilaging the country to that extent that it was said a crow could not pass over that country without danger of starvation unless he carried rations with him. Of the same party is recorded a stolen presidency, an attempt to pass a force bull applicable to the South by which a party could continue in power without limit of years. We do not approve of all the enactments of the Democratic party of its schemes we are not at all in sympathy. We pity the partisan who sees no beam in his own eye while he criticise the Democrat with the mote in his eye.

LET HIM PAY.

There is a petition in circulation reducesting Postmaster Hall to re-

réquesting Postmaster Hall to re-tain the present chief clerk. Some Democrats have been asked to take a hand in this matter and we are pleased to know that only a few have been caught meddling in few have been caught meddling in Republican affairs. It may be Mr. Hall created obligations during his campaign and he should be per-mitted to fulfil every promise even though it would require three or more chief clerks. Promising to pay in politics as well as in ne-gotiable notes is apt to get a fel-low in trouble. low in trouble.

DOWN AND OUT.

-day Moss will become a ver To-day Moss will become a ver-itable Congressman, Rhea having been asked to yield his certificate of election to Mr. Moss. Well, if we were deciding this matter we we were deciding this matter we would declare the election off and so enact as to have another elec-called at once. It is time a halt should be called on election cor-ruption. Democrats can not af-ford to have the smell of fire on

FACTIONS.

Yes, there are rings and faction among Montgomery Republicans They boil under a heated con test and simmer all the while.

They have been over heated fires lately and the factions have been disturbed mightily.

WILL PROVIDE.

THE ADVOCATE circulation is brisk, advertising columns are full and job hooks are crowed. We shall after this issue undertake to give more roomfor reading matter.

chestra will be the attraction. No attraction of such merit has ever appeared in the city, and an enterpainment will be given unequaled for enjoyment.

Moved to This County.

for an invented.

Anniversary.

On Thursday afternoon at Miss Pearl Braton's School room the V.C. T. U. beld an open s. ssion in occlepration of the birthday of Neai Dow the great temperance agitator. The local president Mrs. B. F. Thompson was in charge. The singing principally by the school children was espicially good. Solos by Mrs. Whaley, Miss Mamie Greene and Sewart McCormick were much enjoyed. A very fine paper by Mrs. C. H. Bryrn considered Gen. Neai Dow as a Reformer.

"The Coming Young Moman" by Mrs. Jacob Henry closely followed "The Coming Young Moman" by Mrs. Jacob Henry closely followed "Che Coming Young Man" by Rev. W. J. Bolin. These addresses were excellent. Masters Charlet Howe and Alite Lane merited applause by their recitations. The president presented to the school a picture of Gen. Dow. It was accounted in an appropriate speech by Miss Mary Cobb Stofer.

Many missed a rare treat. Rev. H. D. Clark pronounced the benediction. The ladies wish to thank Miss Button for her assistance and use of her very attractive and home like rooms.

We hope to give some of these papers to our readers.

The Walkover Shoe is conceded to be the best \$3.50 shoe made.

A CURIOUS DISCOVERY.

Inetro-Optical Phonomeas Recently 8scured by German Scientists

The electro-optical phenomena
which have been recently discussed by
Dr. Emile Bose, of Breslau, are interesting both from a theoretical and
practical point of view. The experimenter finds that when a current of
long duration is passed through
slightly and solution, using gold electrodes, the anode becomes changed;
appearance, and is covered with
layer of hydroxide. If the curren
is now stopped and the electrodes coinected to a sensitive high-pressugalvanometer, the latter indicates,
current whose intensity varies wf
the amount of light thrown on tplate covered with the layer of hdroxide. By using an are lamp as
source of light, a difference of pote
tial as high as 0.1 volt between r
plates has been found. This depen
upon the color as well as the intens
of the light. It is shown that a sire
white light diminishes the potent
As to the different parts of the sy
trum, violet light has the same

Some Florentine experts in snallology, finding time hang heavy on
their hands, confevired the idea of
accurately calculating the traveling
speed of snulls, and, with this end
in view; it was decided to make a series
of more or less claborate experiments.
Half a dozen of the mollusks were permitted to crawl between two points
ten feet apart. Exact time was kept
from the start to the finish, and thus
the average "pace" was ascertained.
The experimenters reduced their figures into tables of feet, and thus
found that it would take a snall exactly 14 days to travel a mile. found that it would take a actly 14 days to travel a mile

Everybody is familiar with our openings, but we are going to make this one the best we have ever had.

One and all are invited to come and inspect our goods.

OLDHAM BROS. & CO.

REMEMBER THE DATES

In gambling the Filipinos are the most persistent race on carth. As choice methods. If successful at soon as a servant or day laborer gets a small stake he stops work if he loses everything he will do anything to regain his loss.

Monte and cock fighting are the most persistent race on carth. As choice methods. If successful at the life of the early Roman Christions.—London Tablet.

For Constipation

STAGE COACH DAYS IN WEST.

REMAINS OF ST. AGNES.

Missing for Nearly Four Centuries and Now Brought to Light.

TheVULCAN Chilled Plow!

By comparing the VULCAN PLOW with its most worthy competitor, the superiority of its construction is obvious, and a field trial to demonstrate quality of work and strength invariably results in a victory for the VULCAN.

The Vulcan

is the only Chilled Plow on the market protected by a valid patent. It differs from all others in construction in having a peculiar Point, which can neither be strained out of position nor brok en by fair means, thereby avoiding costly delays and repairs.
